

References

Gardtner & Co is the oldest stamp-factory, founded in the year 1878.

From 20 years we have been producing stamps with both: flat and rotary laser.

Since we switched technologies from old one to modern-laser technology we've been working with rubber provided us from Rubber for Laser Ltd. 10 – 15 pcs of A4 rubber sheets are used up every day and we are satisfy of price, delivery time and quality of products coming from Poland.

We can recommend cooperation and products of Rubber for Laser Ltd.
